Git-Hub : <https://github.com/yoganandha07>

EXPERIENCE

- Analyzed a dataset of over 100,000 sales records from the Big-Mart sales dataset.
- Identifying key patterns that informed strategic decisions and contributed to a 20% increase in quarterly sales forecasts.
- Developed an Web Application that predicts future sales.

ACADEMICS

- **BACHELOR OF TECHNOLOGY**

Pursuing

University : Dhanalakshmi Srinivasan University, Trichy

Course : Computer Science Engineering in specialization with [AI&DS]

Percentage: 7.06 C.G.P. A [Upto 5th Semester]

SKILLS

- Python
- Machine Learning: Scikit-learn, TensorFlow
- Data Analytics : Numpy, Pandas, Matplotlib, Seaborn
- Web Development

CERTIFICATIONS

- Data analysis using Python
- Python Libraries : Numpy, Pandas, Matplotlib
- SQL and Relational Databases
- Web Development
- Microsoft Excel

PROJECTS

- **Sales Prediction Model Web Application**
 - Analysed Big-mart Sales Data
 - Made a Machine Learning Model
 - Made a Web Application
 - Github link : <https://github.com/yoganandha07/Mini-Project.git>
- **Tindog Website**
 - Made a Website that sells dog breeds online.
 - Github link: <https://github.com/yoganandha07/tin-dog.git>

EXTRA CURRICULAR ACTIVITIES

- Member of Artificial Intelligence club.
- Participated in Algo Bharath Hackathon.

DECLARATION

I hereby declare that all the details mentioned above are in accordance with the truth and fact as per my knowledge and I hold the responsibility for the correctness of the above mentioned particulars.
